

**Presentation- Famous Architects (50 pts.)**  
**Architectural Drawing**

**Project Goal:**

Each of you will research a famous architect from the past few centuries. You'll create a PowerPoint presentation to teach the rest of the class about your architect.

**Presentation Content:**

- See attached rubric, and use it as a checklist
- Slide layout should be graphically sound and somewhat creative. Be careful not to be too creative (avoid too many different colors or styles of font, too much clutter on slides, text overlapping images, etc.).
- You should have a good image to text ratio. Include LOTS of images... many of us are visual learners! The more images you find, the more interesting your presentation will be.
- Presentation must be between 3-5 minutes. Speak loudly and clearly. Have notes handy, or memorized. Be enthusiastic and engaging!
